monthly meeting at 7 o'clock at the Courthouse.

Meters along the north side of the block had been removed last month in a 30-day test to see if opening another lane of traffic would ease congestion and speed the flow of traffic turning right on 4th Ave. N.

A traffic count conducted this past week showed that about one car out of five turns right, the committee was told at a hearing Monday night. Asking the committee to restore the meters were W. H. Boehmie, operator of the Dixon Hotel; Francis Daly, Jr., an appliance dealer, and Robert Bartels, manager of the Wisconsin Rapids Area Chamber of Commerce.

Daly presented a traffic count which he said was made from 9 a.m. to 5 p.m. Monday and showed 2,650 cars going straight ahead on W. Grand Ave., with 817 turning right.

One resident of 4th Ave. N. appeared to ask the committee to not re-install the meters. He said having two lanes of west-bound traffic made it more convenient for those planning to turn right.

Police Chief R. J. Exner suggested that the first meter at the corner of Grand and 3rd Ave. N. not be replaced. He said this would allow traffic using the right-hand lane in the 200 block to merge into the left hand lane before being confronted by the parked autos.

The committee voted unanimously to recommend restoring all the meters except the one, as suggested by Exner.

Heavy automatic weapons fire by the Viet Cong brought down five helicopters near Saigon Monday. One crashed and burned, but the other four were able to limp away from the ambush and were reported repairable.

Brig. Gen. John F. Freund was wounded in the lower right leg when he ordered his own chopper down to rescue troops from one of the downed copters.
