WLB SHOWS IT MEANS TO CARRY OUT FDR'S ORDER

Washington - (AP) - Voluntary offers by 10,000 employers to raise wages and salaries will be denied as a result of the war labor board's refusal to permit adjustment of inequalities and inequities.

There was no official estimate of how many employes this would affect, but unofficial estimates ranged from half a million to a million.

The WLB laid down its first formal application of the president's hold-the-line order of April 8 in a decision late yesterday declaring it "proposes to carry out strictly the spirit and intent as well as the literal meaning" of the anti-inflation or-

Simultaneously the WLB announced it had instructed local boards to "deny at once all proposed wage and salary adjustments which involve only inter-plant inequalities and which cannot be decided on the basis of the Little Steel Formula or sub-standards of living."

The board estimated this would result in disapproval of about 10,-000 of the 17,000 cases on hand in the 12 regional offices.

There was an awareness among WLB officials that the rigidity of the order and its application might have unfavorable repercussions among the workers, and even among employers.

The effect of the executive order, the WLB told its regional boards, "is to place the manpower responsibility squarely up to the manpower commission and you should at once so inform the parties in all pending cases involving seasonal producers in order that no time may be lost in their facing the problem.'

The local boards were instructed that applications from seasonal producers, such as canners, for increases in wages over last season must be denied except to the extent that they can be justified under the Little Steel Formula or sub-standards of living provision.

The local boards were urged to proceed expeditiously to hold public hearings on the question of substandard wages for their regions and to recommend specific amounts for the consideration of the national board.

The first case formally decided under the new executive order involved the Universal Atlas Cement company of Universal, Pa., a U. S. Steel Corporation subsidiary, and the CIO Mine, Mill and Smelter workers. A referee had recommended an increase of 51/2 cents an hour in line with steel industry wages and because of similar raise given two other plants of the com-

The board unanimously said it could only allow an increase within the 15 per cent Little Steel Formula and therefore cut it to 2 cents.

STATE GOP TO **MEET JUNE 27**

sin Republicans will hold a state convention in Appleton Sunday, June 27, the party's state voluntary committee decided here yesterday. Kolb Named Chairman

Dr. C. L. Kolb of Appleton, chairman of the voluntary committee, was named convention chairman. He was authorized to name a convention committee which will meet at Appleton May 11 to make final arrangements.

Although this is an off-election

year, and convention business will be largely perfunctory, a poll of favored holding the meeting to maintain interest in party activities. Results of the poll were reported by John Dickinson of West Bend. Principal business will be the

filled yesterday by appointment of Everet Yerly, of La Crosse, to succeed the late Don Gordon, of La-Crosse, and Mrs. Marian Freytag, of Williams Bay, to succeed Mrs. Annette Thompson, of Elkhorn, who has moved out of the state.

Meet at Milwaukee in 1944 Dr. Kolb recommended Appleton as the convention site. He said it had been agreed that the 1944 state meeting would be held in Milwau-

Delegates will be chosen on the usual basis—one from each county plus one for every 250 votes cast for governor in the last election.
