For Monday, June 18, 1973

your birthday

ARIES (March 21-April 19): A goal you're presently pressing for will lose some of its luster after you've attained it. Such is life.

Taurus (April 20-May 20): More belief in yourself, coupled with elbow grease, is a must in order to get all today has to offer. Flex those muscles.

GEMINI (May 21-June 20): A shift in convictions you didn't foresee works for your benefit. It will eliminate an annoying hindrance.

CANCER (June 21-July 22): Analyze all your alternatives before you make a major move. After brainstorming, you'll see things more clearly.

LEO (July 23-Aug. 22): A present source of contention will only be resolved through give-and-take. Begin arbitration now, but don't be namby-pamby.

VIRGO (Aug. 23-Sept. 22): Today you will be called upon to give more of yourself and your resources to one for whom you are responsible. Get with it.

There is more room at the top of the ladder for you this coming year. Dedicate yourself to bettering the situations you can change.

LIBRA (Sept. 23-Oct. 23): Be more watchful than usual of those who come under your protective wing. They are careless today where you would be.

SCORPIO (Oct. 24-Nov. 22): Remember you're harboring in the back of your mind what will be brought out. I will be discussed with the party concerned.

SAGITTARIUS (Nov. 23-Dec. 21): You have something of value that you've laid aside. It's time to dust it off, as it's now commercially do-able.

Capricorn (Dec. 22-Jan. 19): That extra strength you need to overcome obstacles is at your command today. Meet your problems head-on, resolutely.

AQUARIUS (Jan. 20-Feb. 19): Some of the pressure you've been feeling lately should start lessening as of now. Next few days look promising.

PISCES (Feb. 20-March 20): Look at things in a businesslike way today. It will help you spot the advantages that are now profitable. Don't miss out.
