THEY
YOU

GAVE THEIR LIVES LEND

Fl. Officer Frank H. Giese
Wisconsin Rapids

YOUR MONEY

Pfc. Hubert Ritchie
Pittsville

You probably knew a lot of these boys . . . watched them grow up from toddlers to young manhood . . . and then, suddenly . . . they weren't around here anymore. Maybe you went to the station with them . . . waved them goodbye and wished them luck . . . and then they were gone. Some of you wrote them letters . . . and received some letters from them.

Then the letters stopped. They were gone into action. They were preparing to make their last sacrifice for freedom. They were going into battle that you and your children might continue to live in an America that was the way they believed it to be . . . as it was before the war . . . as it is today . . . as it will be after the war.

Pvt. Elmer Putzier
Wisconsin Rapids

They believed in America so strongly that they were willing to back up their belief with their lives.

QUOTA FOR SOUTH WOOD COUNTY

BACK THE ATTACK! BUY WAR BONDS

Our quota for south Wood County is \$1,864,000. To meet this quota none of us can afford to be niggardly. The money we lend our government becomes a fighting invasion asset against our personal foe . . . the axis. The money invested will return \$4 for every \$3 invested if the bonds are held to maturity.

Sgt. Thomas Redmond
Pittsville

Lt. Richard G. Rosebush
Port Edwards

You can never match the sacrifice that these men made for their country, but you can do everything in your power to see that their sacrifice was not in vain. Stop and think. Are you buying all the War Bonds you can? Can't you buy more if YOU sacrifice a little? Let your conscience be your guide . . . buy War Bonds 'til it hurts. Do without. Save every cent you can and put it into War Bonds.
