LEMON AND LIME TIPS but are not so high as greenish yellow lemons in acid content which gives tangy flavor.

Limes should be firm, not soft and mushy. Look for limes with smooth, glossy rind, thin skins, fine grained and juicy pulp.

Lemons and limes are both rich in Vitamin C, the anti-scurvy vitamin, which helps to keep the gums and teeth healthy. Use lemons and himes often not only for making cooling drinks, but for flavoring other dishes.
