## Claim Ko-Red Casualty List At 200,000

Tokyo—(AP)—South Korean troops punched 20 miles deeper into Communist North Korea today on the east coast while other Allied forces massed for the expected big push to the Red heartland.

The forward South Koreans were more than 75 miles beyond parallel 38, the border where they had crossed into enemy territory last Sunday.

Arrayed below the boundary was the bulk of the poised 175,000 United Nations troops. Air and naval support was at the ready for an offensive.

200,000 Casualties

Another vice apparently was being forged to crush the remnants of the reeling Reds—officially estimated by MacArthur's headquarters to have suffered 200,000 casualties since their June 25 invasion.

Forty thousand of the Red manpower losses were listed as war prisoners of the Allies.

The other casualties admittedly included some duplications. This means a man might have been wounded, removed and then returned to battle, wounded again and pressed into action again.

A MacArthur spokesman declined to speculate on how many of the Red casualties were dead men.

Lost In Trap

The Reds' heaviest losses of men—and materiel—have been suffered since September 15 when the Allies leaped to the offensive climaxed by the liberation of Seoul and entrapment of Red divisions in the south.

Field dispatches said South Korea's Third division troops were approaching Tongchon, about 32 miles southeast of Wonsan.

There was virtually no Red resistance.

Equipment was abandoned along the route. Red prisoners said the North Koreans had withdrawn northward in great haste for a stand in the Wonsan area. Wonsan is 90 air miles east of Pyongyang, the Communist capital.

Aerial Support

Tongchon is more than 220 miles north of Pohang, where the Third division began its push in mid-September. Closer aerial support for the Third and other South Korean forces on the east coast was indicated by an announcement that the Pohang airstrip would be back in use Saturday.

As the South Koreans stabbed farther into the north, MacArthur's headquarters made its official estimate of 200,000 Communist casual-
