

LABOR'S RECORD IN WAR EFFORT LAUDED BY FDR

Toronto—(P)—President Roosevelt, praising the "splendid" production record of United States workers, told the American Federation of Labor today in a message to its convention he was sure "they can take whatever it takes to win this war."

"Everywhere during my recent inspection of war activity, I found the workers doing all that was laid out for them and more," said the president's message.

"At every turn they gave assurance that they can take whatever it takes to win this war."

Federation Responds

William Green, president of the Federation, answered that the AFL "will respond to any request the president may make and every order which he may issue as commander in chief of the army and navy."

Green stressed that we "regard him as the commander of the army of production as much as he is the commander of the armed forces of the nation."

Meanwhile, utilizing a recess of the Federation's annual convention to address the Empire club, an organization of Toronto businessmen, Green said in a prepared address:

"Management and labor, standing together and working together under our free institutions, have much to give to our country. The success of the war effort depends very largely upon their service.

"If we fail to meet the challenge, we don't deserve any better fate than that which awaits us at Hitler's merciless hands."

Mine Union Convenes

Cincinnati—(P)—The United Mine Workers of America today looked for guidance from their fiery leader, John Llewellyn Lewis as the union's 2,500 delegates opened a two-week convention fraught with wartime problems.

From their chairman, UMW representatives from 26 states and Canada sought leadership in dealing with such convention problems as wage increases, a request by Interior Secretary Harold L. Ickes for a lengthening of their 35-hour week, a growing manpower shortage and a widening breach with the CIO.

Want Wage Increases
Lewis, in a pre-convention press conference, asserted that a majority of UMW locals want wage increases of about \$2 a day and expressed belief President Roosevelt's recent wage freezing order contained ample provision for such an increase.

Secretary Ickes' recent statement that a longer work week for miners was "imperative" was challenged by Lewis who expressed belief the nation's estimated 1943 requirements could be met without resorting to a six-day week.

The steadily growing dispute between the UMW and the CIO drew no pre-convention comment from Lewis, but O. E. Gasaway of Brazil, Ind., president of District 50, UMW, told the United Dairy Farmers Sunday that the convention "will settle the CIO problem."

Juneau County Launches Big Scrap Drive

Mauston, Wis.—Enlisting the aid of some 3,000 school boys and WPA equipment and manpower, Juneau county has gone "all-out" in its effort to meet a demand for 870 tons of scrap for this nation's war effort, according to County Salvage Chairman Bert Vogel.

Four big scrap dumps are being set up at Necedah, Camp Douglas, Elroy and Lyndon Station as collection points and when the county's drive is over junk dealers will bid on the piles of metal and divert it into regular trade channels.

All schools in the county are co-operating with the drive, with teams appointed to compete for total tonnage of scrap collected. Villages are urged to supply a public scrap dump, properly marked, where people can deposit scrap metals.

Scrap pledges secured by the county implement dealers under the direction of Sheriff Steffen will be turned over to WPA foremen who will collect and dismantle all salvage metal on farms. The owner of the metal will receive \$7 per ton for scrap collected.

Farmers, townspeople, civic groups, teachers and school children are urged to cooperate with the salvage committee of Juneau county in reaching the county's scrap quota.

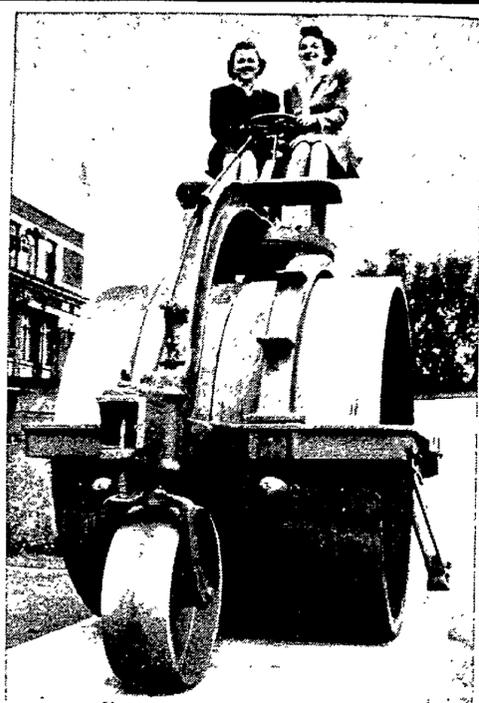

APPROVE HATCH ACT EXEMPTIONS

Washington—(P)—The house today voted to exempt teachers and country editors from the Hatch act ban on political activity.

The measure previously had been passed by the senate to exempt employees of educational institutions, and the exemption for country editors was inserted by the house. It now goes back to the senate for consideration of the editor's amendment.

During house debate the teachers and country editors were described as "beneficial elements" and "the unpolluted, non-contaminated voice of the people."

Table Compares House and Senate Tax Bill Versions

Washington—(P)—Following is a table, prepared by the senate finance committee, comparing the total income and withholding taxes which would be collected from individual taxpayers under the new revenue bill as it was approved by the house with the total income and victory taxes to be collected under the bill as revised by the senate committee.

House bill totals include the 5 per cent withholding levy proposed for current collection of income taxes and senate bill totals exclude the post-war rebate provided for taxpayers.

plained that the bill was a "disguised attempt to repeal the entire Hatch act" which forbids participation of federal employees in elections. Teachers sometimes are paid from federal funds and some country editors have part-time federal jobs.

As worded, the senate bill exempts officers and employees of "any educational or research" agency or institution.
