## **ALLIES FOR COAL**

BY JAMES MARLOW AND GEORGE ZIELKE Washington-(P)-The invasion of Italy probably has tipped the allied coal scuttle.

Italy has practically no coal its own. This country has coal. So political campaigns, has Great Britain. Both countries Bitter Controversry are producing less than they need.

Will Need Help But a conquered Italy, to get on its feet, will have to depend on the allies for help.

Italy, using more than 15 million tons of coal a year before entering the war, received 80 per cent of its supply from Germany. It has been depending on its axis

partner ever since. Prime Minister Churchill British miners in May Great Britain's coal production was 15 million tons short of its needs. United States coal production is

behind 1943 schedules. Already eastern householders-seen told they may have, until Dec. 1, only 50 per cent of what they used last year.

Begin Shutting Off Supply

Last week, as allied ground forces swarmed across Messina strait to start the climb up Italy's boot, allied bombers streaked sible. northward to plaster Germany's rail link with Italy through the Alps' Brenner pass.

Through that jugular vein of the axis Germany had poured not only coal southward but also military reinforcements.

It seems likely the pass-plastering will continue as the allied invasion moves up the boot. U. S. Coal Picture

Here is America's coal picture: Last year the United States produced 580 million tons of bitumintons of bituminous, 65 million tons of anthracite. It's behind schedule Little Enthusiasm

This year's coal strikes cost about 24 million tons-20 bituminous and four anthracite-which canis short, the mines having lost a tioned in Australia, and writes of net of 60,000 to 70,000 men to the many interesting sights which he armed forces and other industries. because of swollen wartime earn-

#### FSA Reveals Figures On Loans to Farmers

Milwaukee-(AP)-Harry S. thigh during the campaign in Sicily. Muir, regional director of the farm Pfc. Brost has also been confined security administration for Michiin a hospital with a slight case of gan, Minnesota and Wisconsin announced today that farmers in the three-state region repaid a total of approximately \$11,349,000 to the federal treasury during the fiscal year ended June 30, while over the same period \$7,412,132 was loaned to other farmers.

On July 1, 1943 unpaid balance on FSA loans in Michigan totaled less than \$7,075,980; in Minnesota, \$13,636,200; and in Wisconsin, \$8,-656.200. Collections for the year ending June 30 amounted to approximately \$2,923,000 in Michigan; \$4,917,000 in Minnesota; and \$3,508,000 in Wisconsin.

#### Award Contracts to Wisconsin Shipyards

Washington - (A) - Four shipyards in Wisconsin and one at Duluth, Minn., were awarded contracts yesterday by the maritime commission for the construction of cargo The yards and the number of

ressels each will build include: Walter Butler Shipbuilders Inc., Superior, 28; Leathem D. Smith building company, Duluth, 12.

## ITALY WILL HAVE Call For More Taxes TO TURN TO THE Major Issue Congress Faces When It Returns

Washington — (AP) — Legislation looking for a new record ment world as Julia Sanderson, level of wartime taxes overshadows virtually all considerations was at his bedside. for the returning congress. However, some of the best informed observers have predicted there

would be no new revenue legisla-

of tion this year-because of the 1944 excess profits tax from 90 to 95 per Retail Sales Tax

A hitter controversy between Treasury Secretary Morgenthau sales tax, and the congressional tax staff beclouds the picture.

The treasury department and the congressional staff are working separately on new revenue programs, for the double-barreled purpose of paying war costs and heading off inflation.

Capitol hill hears that the tax staff, if the joint congressional committee on taxation approves, might resort to subpeona to get information about what the treasury is do- months. ing to draft an administration program-and that Secretary Morgenthau might go to court to challenge he great users of anthracite—have such a move, which he is said to regard as a "fishing expedition." Search For New Billions

The house ways and means committee, shortly after congress reconvenes September 14, will begin a preliminary search for new bil-

lions. The treasury wants to add \$12,-000,000,000 to the present annual collections of \$38,000,000,000, if pos-

It may be next spring before congress completes a new general revenue measure. The Tax Picture

Today, on the best information available, the tax picture looks about like this:

Sales tax—given a surprising amount of support in private conversations on capitol hill, but regarded politically as a bear waiting to be taken by the tail. Organized labor opposes it as a burden on small income groups and veteran ous, 60 million tons of anthracite. lawmakers say it hasn't a chance. A This year's goals are 600 million 10 per cent federal retail sales levy would yield about \$5,600,000,000.

Excess profits tax for individuals the ways and means committee ordered a study of such a tax, but the treasury has little enthusiasm not easily be made up; manpower for it, due to the difficulty of arriving at a formula for determining what constitutes excessive income ings. This tax idea appears ready for the shelf. Compulsory savings-the treas-

ury favors the voluntary bond purchasing program, and legislation to put savings on a compulsory basis now is deemed unlikely. Individual income taxes-might

be raised. Sentiment Against Increase Corporation income taxes siderable sentiment now against

any increase in the 40 per cent "normal" rate. Excise taxes—these might be raised on such items as tobacco. alcoholic beverages, amusements. A possibility is a tax on soft drinks.

If the job of tax framing is not completed until spring, it is likely that any higher rates on individual or corporate income would not become effective until 1945, since the ways and means committee has gone on record as opposing any retroactive taxes.

Two Definite Programs Chairman George (D-Ga.) of the senate finance committee and Senator Byrd (D-Va.), member of that body, are the only members to come forward with definite tax programs.

The Georgian is author of a program he figures would bring in about \$40,000,000,000 annually (the present rate of collections is about \$38,000,888,000, with such deductions limited to 15 per cent of the taxable income.

If congress accepted this bondtax deduction plan, George said Shipbuilding Co., Sturgeon Bay, 16; he then might agree to increases in Froemming Brothers, Milwaukee, the individual normal tax from the 10; Globe Shipbuilding Co., Supe- present 6 to 8 or 10 per cent, in rior, eight; Barns-Duluth Ship-the corporation normal tax from 40 to 45 per cent and "perhaps" in the
