

# Davis, Dramm Attend Last Board Meeting

MANITOWOC — Tuesday marked the last meeting for two members of the Manitowoc Board of Education. Dr. Nathan Davis and John P. Dramm. They were honored at a dinner at Sarge's Charcoal House following the regular June board meeting.

Replacing them will be Robert Niquette and Dr. Daniel Pick, elected this spring.

Dramm was elected to the board in 1959 and served as president in 1962-64. He declined to seek re-election this year.

Dr. Davis was elected to the board in 1962 and was re-elected in 1965. He also declined to run for re-election this year.

**Jones Pays Tribute**  
Certificates and gifts were presented to the retiring board members by Vining F. Ihlenfeld, president.

Supt. Charles E. Jones, in tribute to the two men said, "Good boardmanship is hard to describe. First, it takes a sincere desire to be of service to the community. It takes sincerity of purpose, courage, energy, time and patience."

Board members, he said, must "stand up and be counted" on controversial issues and must take actions "based on their convictions."

"These will be big shoes to fill," the superintendent said, "and I hope both of you will come back some day and serve again on the board."

Dramm was on the board when Jones came to Manitowoc from Beloit, and is the last member of that board to leave its membership.

**Good Experience**  
In presenting the certificates, Ihlenfeld said, "Your service on the board has meant something important to this community, especially to the children. These certificates will be your tickets to many memories and the knowledge that we appreciate what you have done these past years."

Dr. Davis said he will continue to follow closely the activities of the board and he counted his years of service as "a good and fine experience."

Dramm said service on the board was "time spent doing something worthwhile" and he will count his three terms as a "fruitful time of my life."

Dr. Nathan Davis

John P. Dramm

# City Manager Gets Pay Hike at Two Rivers

TWO RIVERS — City Manager James Perkins was granted a \$300 per year salary increase by the City Council during a meeting Tuesday evening.

The salary increase, effective July 1, will boost Perkins' annual salary to \$13,650.

Council action on the increase came after an extended 74-minute executive session on the matter and on a unanimous roll call vote. Eight councilmen were present at the meeting with John Koch absent.

Councilman Kenneth Dodge made the motion to grant the salary increase "with no strings attached", Edward Lahey seconded.

Tuesday's meeting was a continuation of last Monday's regular meeting which was recessed after an extended 88-minute executive session.

**Executive Session**  
Council President Leo Sonntag ordered Tuesday's meeting into executive session again at 8:10 n.m., clearing the Council chambers of all but the councilmen and the city manager.

Prior to the executive session, Perkins told the councilmen that it was not required that the Council go into executive session to discuss compensation for a specific person although it is perfectly proper to hold an executive session to discuss such an item.

Sonntag said that he had found that a majority of the councilmen would prefer an executive session to discuss the matter. The executive session was called for the purpose of discussing a specific matter of personal compensation.

Perkins, who sat in on most of the executive session, left the chambers at 9:15 p.m. and was called back in at 9:32 p.m.

The Council went back into open session at 9:34 p.m. The motion to increase the city manager's salary followed immediately with no open discussion.

Perkins was appointed city manager by the Council Sept. 29, 1965, and assumed office Oct. 11. His starting salary was \$10,500. Tuesday's action was the fifth salary increase in four separate Council actions, Perkins has received since his appointment.

The salary increases generally have come at six-month intervals.

**View Movies**  
In other Council business, three representatives of Allis-Chalmers and Mid-States Equipment Co. of Milwaukee presented two short movies illustrating a \$23,000 Beachmaster Tractor and Beach Sanitizer manufactured by Allis-Chalmers.

The Council took no action on possible purchase of the beach cleaner, deciding to think about the matter for a time.

The purchase of a beach cleaner of the type illustrated in the two movies has been under consideration by the Council for some time and the Advisory Recreation Board has recommended acquisition of such a piece of equipment.

The beach cleaner displayed digs down six inches into the sand, picks it up, sifts it in removing all debris and then leaves a six-foot wide path of clean sand in its wake.

The machine is designed to remove cans, bottles, cigarette butts, paper, seaweed, kelp, algae, alewives, small chunks of driftwood and other trash from the sand. It also can be operated in shallow water.

**Clean Beach**  
The machine, on the market only some five years and largely custom made, travels at the rate of one mile per hour and can clean about an acre of beach per hour.

Perkins told the Council that he felt such a machine would pay for itself in three years and would help in keeping the beach open and clean. He said that the tractor could be used for ice rink cleaning during the winter.

Interest in purchase of the beach cleaner has stemmed largely from the alewife problem which resulted in the city spending some \$20,000 in an effort to keep the beaches clean last summer.

The Council also discussed briefly an announcement by Safe Way Motor Co. of Manitowoc that it is considering dropping its bus run between Two Rivers and Manitowoc.

No action was taken although several councilmen indicated they would not favor the city setting involved in the operation of the bus route.

**HELSINKI** — The Finnish Council of Clergy will admit Catholics hereafter.

**YOUR HERALD-TIMES AND YOUR VACATION**  
If you wish to have your HERALD-TIMES follow you on your vacation or for any reason you would like your delivery interrupted, please telephone the Circulation Office three days prior to interruption date.

**DRIVE-IN BARBERSHOP** — Jacob L. Stueber surveys the damage done to his barbershop at 436 N. 10th St., Manitowoc, when an auto driven by 22 year old Charles F. Windus of 811 S. 21st St., Manitowoc, Saturday morning crashed into the building. The Windus auto, according to police, was traveling west

on State Street when it jumped the curb on the south side of the street, struck a fire plug and continued westbound across N. 10th Street for 134 feet. Besides crashing into the barbershop, the auto damaged the aluminum siding at the Joseph Novotny residence 434 N. 10th St. (Photo by staff photographer)

# No Opposition Voiced to 2nd Nuclear Plant

MANITOWOC — No major opposition was voiced at a public hearing here Tuesday on an application for construction of a second nuclear power plant at the Two Creeks site eight miles north of Two Rivers.

The hearing, conducted by the Atomic Safety and Licensing Board of the Atomic Energy Commission, ran for nearly five hours in the Manitowoc City Hall council chambers.

The Wisconsin Electric Power Co. and the Wisconsin Michigan Power Co. applied for the second unit, which will have an initial capacity of generating 454,000 kilowatts of electricity. It will be similar in output and size to the first unit, which is now under construction at the 1,260-acre site.

**Favor Construction**  
The licensing board, chairman by J. D. Bond, Washington, D.C., took the application under advisement following the hearing and is expected to reach a decision in 30 days. Conducting the hearing with Bond were Reuel C. Stratton, consulting engineer from Hartford, Conn., and Dr. John C. Geyer, chairman of the department of sanitary engineering and water resources at John Hopkins University, Baltimore, Md.

During the morning session, the board members heard testimony from local officials favoring construction of the second nuclear plant. The construction was favored by the Town of Two Creeks board, Manitowoc and Two Rivers City Councils, Manitowoc County Board of Supervisors and Manitowoc Area Chamber of Commerce.

**Discuss Safety**  
Considerable time was spent discussing the safety features of the nuclear plant. Total population within a 10 mile radius of the plate site is presently about 20,835 persons and is expected to increase to about 28,050 by 1985.

Westinghouse Electric Corp. Officials said they planned to use a spray solution of sodium hydroxide rather than sodium thiosulfate for removing radioactive iodine from the containment atmosphere in the event of an accident. The sodium hydroxide was found to be more stable, they indicated.

The Atomic Energy Commission required the applicants to meet a 70 point criteria in general design of the nuclear plant.

**Reason for Losing**  
"He believes," La Follette said, "that whenever possible, even though the state may not have a good case, one should be brought anyway to focus public attention on corruption... and to expose the accused because information gathered from the intelligence files indicates that the person is already guilty of being a part of an overall criminal conspiracy."

"That is why many of the most important cases he brought were lost in court," the attorney general added.

La Follette said he was unable to follow through earlier with his decision to oust Dalton, "because Meister made a public demand that this be done, thus making it impossible for me to act."

La Follette said he had asked Dalton to accept a voluntary transfer from the division.

**Concert Thursday**  
MANITOWOC — The Manitowoc Marine Band will present its thrice delayed concert at 7:30 p.m. Thursday at Washington Park, that is if rain does not again cause a postponement.

E. Bert Trutschel, director, said Wednesday the bandmen were hopeful clearing weather would permit the concert to be presented. The opener a week ago was postponed from Tuesday to Thursday, and rain stopped the debut that day. The concert scheduled for Tuesday of this week was also canceled because of rain.

# Car Hits Pole, Driver Injured

TWO RIVERS — An 18-year-old Two Rivers girl suffered minor injuries late Tuesday morning when the auto she was driving smashed into a mail box and power pole on the south side of 31st Street, between Tanney Road and Prairie Street.

Mona M. Gauthier of 1408-19th St. suffered a cut to her lip in the crash. She was taken to a doctor for treatment.

According to police, Miss Gauthier was traveling east on 31st Street when her car left the roadway and slammed into the mail box and power pole in front of the Edward Lesperance residence at 2133-31st St.

Damage to the auto, power pole, mail box and yard was estimated at over \$1,000 by police.

# Round Up Reds

SEOUL (AP) — Forty-five thousand police and reserves pulled a surprise sweep for Communist agents in Seoul before dawn today, rounded up 10,470 persons, and released most of them when their identities were established.

# Rain, Rain

(Continued from Page 1)

Wisconsin near Dubuque, Iowa, 1.58 inches of rain fell in the 24-hour period ending at 7 a.m. Wednesday. Madison recorded 1.42 inches in the same period. La Crosse had 1.09, Milwaukee 1.03, Beloit .82, Lone Rock .77, Racine .72, Burlington .64, Wausau .54, Green Bay .53, and Eau Claire .45.

In the hour between 7 and 8 a.m., Milwaukee recorded an additional .80 inches of rain.

The Kickapoo River near Soldiers Grove was reported above flood stage, but no severe flooding occurred. It was expected to crest today one foot above flood level in Pepin County, the Chippewa River in the area of Durand was at flood stage, and some homes and businesses had flooded basements.

Temperatures continued on the cool side. Beloit set the high of 71 Tuesday. Others ranged down to 56 at Milwaukee.

At night, Park Falls was the coldest place with 47 degrees. The Beloit region was the warmest with 57.

# Redfin Is Subject of TV Program

MANITOWOC — "Return of the Redfin" will be the subject of a 30 minute color presentation at 6 p.m. Sunday on WFRV-TV, channel 5, Green Bay.

The program will detail efforts of the Manitowoc Submarine Memorial Assn. to obtain a submarine built at Manitowoc Shipbuilding Inc. during World War II for use as a permanent memorial here.

The U. S. Navy recently agreed to reserve the submarine Redfin for Manitowoc when it becomes available in 1970. It is presently being used for training purposes at Baltimore, Md.

# Manitowoc City Hall Calendar

MANITOWOC — There will be a meeting of the Utility Committee at 6:30 o'clock this Wednesday evening in the Committee Room at City Hall.

The Employee Relations Committee will meet at 7 o'clock this Wednesday evening in the Committee Room at the City Hall.

There will be a meeting of the License Committee at 8 o'clock this Wednesday evening in the Committee Room at the City Hall.

# Coho Ponds

(Continued from Page 1)

will purchase the pond sites or obtain long term leases on them.

Buchholz told of the tremendous impact experienced in the State of Michigan due to the development of coho salmon fishing. Studies showed, he said, that communities having facilities to accommodate such fishermen realized an increased income of at least \$500,000 and as much as \$1 million annually.

Fishermen spend on the average of \$30 to \$35 a day in such communities.

Serving with Buchholz on the steering committee are William Riens, Earl Toltzman, Howard Barner, Alvin Mott, Harold Hoffman, Syd Herman, Keith Henley and Ed Keip Sr.

# US to Give Spain Desalting Plant

MADRID (AP) — The United States is giving a seawater desalting plant to two small fishing villages which suffered contamination damage when a U.S. B52 crash spilled four hydrogen bombs in the area Jan. 17, 1966.

U.S. officials said the plant will be built in appreciation for the villagers' help after the B52 bomber collided with a refueling plane.

The people of Palomares and Villaricos in southeastern Spain have had to fetch their water from a nearby village since the crash. The U.S. Air Force has paid \$660,000 in damages, but fishermen and farmers still are filing lawsuits. Fields were contaminated when some of the bombs broke open, and one of the bombs was lost off the coast for 80 days, restricting the operations of the fishermen.

# Four More State Servicemen Killed

WASHINGTON (AP) — The Defense Department announced Tuesday the names of four more Wisconsin servicemen killed in action in the Vietnam War.

They were identified as Army Pfc. Mike E. Prothro, husband of Mrs. Judith A. Prothro, rural Lyndon Station, Juneau County; Army Pfc. Robert G. Zink, son of Mrs. Catherine D. Zink, Stevens Point; Marine Lance Cpl. Frank J. Strand, son of Mr. and Mrs. Frank J. Strand, rural Junction City, and Marine Pfc. Patrick A. Connolly, son of Mr. and Mrs. Ward Connolly, Green Bay.

**SYDNEY** — Power hand driers are popular here.

**LONDON** — Censors are restricting films for children.

# Band Concert Set Thursday

TWO RIVERS — The Municipal Band, rained out of last week's scheduled concert, will try again this Thursday evening.

The concert, from the Central Park Bandstand, is slated for 7:30 p.m. The band will be under the direction of Andrew Kashinski.

With last week's concert rained out, the band will be playing the program originally planned for that week.

Two solos — a vocal and an instrumental — will highlight the program. Richard Luebke will sing "I Believe" and Glenn Nelson, the assistant director, will play "A Touch of Tuba", a bass horn solo.

Here is the concert program.  
Vaquero, March and Procession  
Fiddler on the Roof, HiFi, I Believe, Polka, Old Time Waltz, Westward Ho.

**Music** — Watch Girls By Trombones on Broadway, Touch of Tuba, Oregon Trail, New Horizons, Washington Post.

Warmup numbers will include Herald rumpets and Barnum and Bailey's Favorite.

# Ask for Petitions on Streets, Sewers

MANITOWOC — Residents who desire street and sewer improvements in 1969 are asked to forward petitions to the City Council as soon as possible.

Petition forms are available at the office of City Clerk Arthur Post.

Street Committee officials said petitions should be submitted now so that work can be planned and budgets made up for the coming year.

To be valid, a petition should contain the signatures of persons owning 51 per cent of the abutting frontage involved in an improvement project. However, the City Council has the authority to order street or sewer improvements in areas where it is deemed in the public interest.

**JOHANNESBURG** — Despite blue laws, golf will continue here on Sundays.

Rates by CARRIER, 50 CENTS A WEEK or \$20.00 a year. By mail in Manitowoc, Sheboygan, Calumet, Brown and Kewaunee Counties, \$15.00 a year. Delivery \$17.00 a year. Road side delivery \$22.00 a year. Beyond above counties in Wisconsin \$22.00 a year. All other states \$24.00 a year.

The Associated Press is entitled exclusively to the use of reproduction of all local news printed in the newspaper as well as AP news dispatch.
